

## Syllabus –Loftware Connector Training

---

### Course Overview

This course provides an overview of the features of the Loftware Connector server and how they apply to sophisticated environments.

### Prerequisites

The student attending this class must have a solid understanding of the Loftware Label Manager as well as the Loftware Print Server. The best way to achieve this is to have attended both the LLM General and LPS training class which is typically given monthly. The student should also have working knowledge of Oracle and basic PL/SQL .
