

Syllabus –Loftware Label Manager Training

Course Overview

This course provides the knowledge needed to design barcode labels and serves as the foundation for all of the other courses in Loftware's training lineup. It has been crafted to build a users' confidence by combining well thought out lectures with 'hands-on' practical lab sessions. Students attending this course will gain a solid understanding of how to approach getting their labels designed and ready for production using the Loftware Print Server (LPS).

Prerequisite

The student attending this class will need no special training on the Loftware suite of products.
