

Syllabus – Advance Loftware Print Server Training

Course Overview

This course provides an overview of the advanced features of the LPS server and how they apply to sophisticated environments.

Prerequisites

The student attending this class must have a solid understanding of the Loftware Label Manager as well as the Loftware Print Server. The best way to achieve this is to have attended both the LLM General and LPS training class which is typically given monthly.

| Time | Topic | Concepts |
|---------------|---|--|
| 9:00 – 10:00 | LPS Performance Considerations | <ul style="list-style-type: none"> ✓ Hardware, Connection, and Label Factors ✓ Centralizing vs. Decentralizing ✓ Multi-LPS Networks ✓ Dividing the Load |
| 10:00 – 11:00 | Strategies for Backup & Failover | <ul style="list-style-type: none"> ✓ Licensing: Full Backup vs. 'Backup Mode' ✓ Licensing: 'Emergency Mode' ✓ Importance of Failover Procedures ✓ Clustered Backup ✓ Non-Clustered Backup ✓ Configuration Files/Registry Settings ✓ Synchronization Utility |
| 11:00 – 11:15 | Break | |
| 11:15 – 12:00 | Case Study | <ul style="list-style-type: none"> ✓ Learn how a large enterprise customer centralized their worldwide labeling system. 12 separate facilities now share the same labeling system which has resulted in a dramatic reduction in labeling mistakes and system maintenance. |
| 12:00 – 12:45 | Lunch | |
| 12:45 – 1:30 | Programming Interfaces | <ul style="list-style-type: none"> ✓ What are Programming Interfaces? ✓ ActiveX, Java, .NET Interfaces Explained. ✓ Demonstration |
| 1:30 – 2:30 | Internet Printing | <ul style="list-style-type: none"> ✓ Web Client ✓ Web Listener ✓ LPS Web Servlet ✓ Configuring 'web users' ✓ Client Side Printer Configuration ✓ Demonstration |
| 2:30 – 3:00 | Case Study | <ul style="list-style-type: none"> ✓ Learn how a large manufacturer guarantees the compliance of inbound shipping labels using Internet printing technology. |
| 3:00 – 3:15 | Break | |
| 3:15 – 4:00 | Notification Agent | <ul style="list-style-type: none"> ✓ Installation and Setup ✓ e-mail Profiles ✓ Monitoring LPS Servers ✓ Server and Device Notifications |

| | | |
|-------------|--------------------------|--|
| 4:00 – 5:00 | Free Form Q&A | ✓ This time will be used as a free form discussion of questions about the course or customer scenarios. Anything goes! |
